Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 11 is objected to because of the following informality: In line 2, reference is made to "said an inner end" although antecedence for these feature is lacking. It is suggested that the term "said" be deleted.

Information Disclosure Statement

2. The information referred to in the information disclosure statements filed February 12, 2002 and July 17, 2002 has been considered.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Yoshida et al (5988751). Note the attachment members (11, 12), hinge pin (14), cam means (26), torsion spring (35) and thrust member (33).

5. Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by Yoshida et al (5988751). Note the attachment members (11, 12), hinge pin (14), cam means (26), torsion spring (35) and thrust member (33).

6. Claim 10 is rejected under 35 U.S.C. 102(e) as being anticipated by Yoshida et al (5988751). Note the first attachment member (7, 11), second attachment member (12), hinge pin (14), cam means (26), torsion spring (35) and thrust member (33).

Allowable Subject Matter

7. Claim 9 is allowed.

8. Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Amendment/Argument

9. Applicant's responses filed July 12, and 31, 2002 have been fully considered.

Remaining issues are detailed in the above sections. Regarding claims 1 and 2,

Applicant argues that Yoshida et al does not disclose a thrust member coupled with a selected attachment member selected from the group consisting of the first attachment member secured to the first frame structure and the second attachment member secured to the second frame structure to assemble the selected attachment member as a unit. This argument is not deemed persuasive since Yoshida et al shows such a

member (33). Note such in Figures 1 and 3. Yoshida et al has been properly applied to claims 1 and 2, as well as newly filed claim 10.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

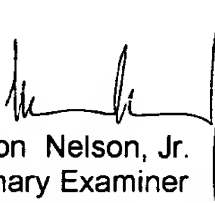

11. This application contains claims 3-8 drawn to an invention nonelected without traverse in Paper No. 5. A complete reply to the final rejection should include cancellation of the nonelected claims or other appropriate action.
